

## **The Federation of Antrobus St Mark's and Great Budworth CE (A) Primary Schools**

### **Overview**

Physical Education (PE) develops children's knowledge, skills and understanding, so that they can perform with increasing competence and confidence in a range of physical activities. These include dance, games, gymnastics, swimming and water safety, athletics and outdoor adventure activities. PE promotes an understanding in children of their bodies in action. It involves thinking, selecting and applying skills and promotes positive attitudes towards a healthy lifestyle. Thus, we enable them to make informed choices about physical activity throughout their lives.

### **Intent**

Through the teaching of PE the Federation of Antrobus St Marks and Great Budworth CE (A) Primary Schools intends to:

- enable children to develop and explore physical skills with increasing control and co-ordination
- encourage children to work and play with others in a range of group situations
- develop the way children perform skills and apply rules and conventions for different activities
- show children how to improve the quality and control of their performance
- teach children to recognise and describe how their bodies feel during exercise
- develop children's enjoyment of physical activity through creativity and imagination
- develop an understanding in children of how to succeed in a range of physical activities and how to evaluate their own success
- assess pupils' learning, analyse and interpret the results to inform future planning and lessons

### **Implementation**

#### **Teaching of PE in the Foundation Stage**

Pupils within EYFS undertake daily physical exercise within specialised external play areas, the main school fields and woodland play area (ASM). They also have use of the fully equipped sports and school halls for structured activities each week. Cross curricular links enable PE activities to take place across all 7 areas of the EYFS curriculum.

#### **Teaching of Physical Education in Key Stage 1 and 2**

All pupils from Year 1 to Year 6 have at least 6 hours of planned physical exercise each week which is delivered by teaching staff and specialist coaches. Please see the yearly overview to see what aspect of PE the children are currently working on in each Key Stage.

PE is further supplemented throughout the schools by the use of the *Golden Mile* – an initiative we have adopted to encourage pupils to walk, run, skip, hop etc. around the school field tracks. The aim is to increase the amount of physical activity that pupils participate in each day during break and lunchtimes. During lessons, teachers also use 60 second fitness alarms to break up daily maths and literacy lessons. Pupils at Great Budworth participate in an additional 30 minutes of physical activity per day.

Pupils also have the opportunity for physical activity during morning, lunchtime and afternoon breaks on the schools' playgrounds, stocked with resources. Staff and Playground Leaders (trained pupils from Year 5 and Year 6) promote and co-ordinate a range of active playground games. Lunchtime personal best challenges are also offered by the Year 5 and 6 Sports Crew on 2 lunch times per week.

Key Stage 2 pupils who are not yet meeting the national curriculum requirement of swimming 25m, attend a weekly swimming lesson during the autumn term. The other children remain at school and have a PE lesson on site.

Key Stage 2 pupils (and Key Stage 1 pupils at Great Budworth) have an annual residential trip in which they undertake a series of physical and challenging activities including: assault course, low ropes, mid ropes to high wires, climbing wall, tree climb plus arts, drama, music and acting workshops.

During the summer term Sports Day is held for EYFS and Key Stage 1 and 2 covering traditional sporting activities, however, the focus during these events is participation.

### **Teaching PE to Children with Special Needs**

We teach PE to all children, whatever their ability. PE forms part of the schools' curriculum policy to provide a broad and balanced education to all children. Through our PE teaching we provide learning opportunities that enable all pupils to make progress. We do this by setting suitable learning challenges and responding to each child's different needs. Assessment against the national curriculum allows us to consider each child's attainment and progress against expected levels.

When progress falls significantly outside the expected range, the child may have special educational needs (SEN). Our assessment process looks at a range of factors – classroom organisation, teaching materials, teaching style, differentiation – so that we can take some additional or different action to enable the child to learn more effectively. This ensures that our teaching is matched to the child's needs.

Intervention through SEN support will lead to the creation of a SEN profile (EHCP) for children with SEN. The ECHP may include, as appropriate, specific targets relating to PE.

We enable pupils to have access to the full range of activities involved in learning PE. Where children are to participate in activities outside our schools, e.g. a sports event at another school, we carry out a risk assessment prior to the activity, to ensure that the activity is safe and appropriate for all pupils.

### **Assessment**

Teachers assess children's work in PE by making assessments as they observe them working during lessons. They record the progress made by children against learning objectives for their lessons. At the end of a unit of work, teachers make a judgment as to whether the child has met, exceeded or is working towards the expectations of each individual unit. They record the information on *Insight* tracker and use the information to plan the future work of each child. These records also enable the teacher to make an annual assessment of progress for each child, as part of the child's annual report to parents. The teacher passes this information on to the next teacher at the end of each year.

Examples of PE lessons and activities are also published on social media.

The Federation of Antrobus St Marks and Great Budworth CE (A) Primary Schools is part of the *Vale Royal Schools Sport Partnership* which enables children throughout the schools to have the opportunity to take part in a variety of healthy lifestyle competitions as well as school games events throughout the year. This introduces a more competitive element into sporting activities.

All our activities are supported by a variety of sports clubs led by school staff and visiting professionals after-school.

### **Impact**

In all classes, children have a wide range of physical abilities. Whilst recognising this fact, we provide suitable learning opportunities for all children by matching the challenge of the task to the ability of the child and, in doing so, raise the pupils' health (considering childhood obesity) and fitness levels, improve skills and develop the pupils' resilience, teamwork and perseverance.

By using assessments, questionnaires and surveys (pupils and staff) and by talking to children, the quality of lessons and confidence in the teaching of PE improves and, as a result, the enjoyment and positive outcomes increase.
